Intermediate, Narayana Junior College 2019 - 2021
Marks: 936/1000

Matriculation, ST. Joseph's High School 2009 - 2019
CGPA: 9.7/10

SKILLS

Programming Languages:	C, Java, Python, SQL, HTML, CSS, Javascript, Typescript
Frameworks & Libraries:	Flutter, FlutterFlow, Reactjs, Nodejs, Express, Tailwindcss
Databases:	MySQL, Firebase, MongoDB
Tools:	Figma, Git, GitHub

EXPERIENCE

Flutter Developer Intern Sep 2024 - Apr 2025
Ambao Krishni Kutumb ([Certificate](#))

- Utilized Dart and applied best practices in state management for efficient app performance and responsiveness.
- Built and tested reusable Flutter components, improving app modularity and reducing development time by 25%.
- Integrated RESTful APIs and backend services to enable seamless real-time data communication within the application.
- Earned recognition for strong performance and was invited to extend the internship, taking on additional responsibilities in both development and testing.

PROJECTS

Askthepic: Built a mobile application using Flutter and integrated the Gemini API to process images and extract answers from user queries. Developed as part of the Google Gemini competition, the app featured image selection, cropping, and OCR (Optical Character Recognition) to enhance user interaction and usability. ([Watch Demo](#))

My Budget App: Designed and developed a retro-style expense tracking app with custom UI and smooth user experience. Integrated analytics to track user behavior and spending patterns for data-driven insights. ([Play Store](#))

Global Connect: A real-time chat platform built with React.js, Tailwind CSS, Node.js, Express, and WebSockets enabling random one-on-one user connections like Omegle. Includes a universal chat room, allowing all users to interact in a shared space.

Blogify: A full-stack blogging platform built with the MERN stack and Tailwind CSS, allowing users to create, edit, delete, and browse blog posts with a clean and responsive UI.
